

**INCIDENT MANAGEMENT SITUATION REPORT**  
**FRIDAY, AUGUST 6, 1999 - 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL III**

**CURRENT SITUATION:**

Fire activity continues to escalate in the Western Great Basin Area. Initial attack activity remains steady in the Northwest. New large fires were reported in the Northwest and Northern California. Good progress was made on several large fires in the Northwest, Western Great Basin and Northern Rockies Areas. Resource mobilization through the National Interagency Coordination Center remains high. Very high to extreme fire indices were reported in Oregon, Washington, California, Montana, Idaho, North Dakota, Utah, Nevada, South Dakota, Wyoming, Delaware, New Hampshire, Rhode Island, Maine, Maryland, Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, West Virginia and Oklahoma.

**WESTERN GREAT BASIN LARGE FIRES:**

An Area Command Team (Muechel) is assigned. A Type I Incident Management Team (Richer) is staged in Winnemucca, Nevada.

BISPO, Elko Field Office, BLM. This fire is twenty miles south of Carlin, NV. The fire is burning in pinyon pine and juniper. Control problem include steep terrain and limited access.

RENCHIE, Elko Field Office, BLM. This fire is southeast of Beowawe, NV. The fire is burning in sage, grass and heavy fuels. Extreme fire behavior was the result of flashy fuels. Current resource threats include a railroad line, power lines, the community of Crescent Valley, private ranches and to grazing allotments. A camp trailer, power poles, railroad ties and plywood stacks were destroyed yesterday.

JIGGS, Elko Field Office, BLM. This fire is near Jiggs, NV. The fire is burning in sage, cheatgrass and a hay meadow. Access problems continue to pose problems for ground personnel. Current resource threats include structures, big game winter range, grazing allotments and stacked hay.

SADDLER COMPLEX, Elko Field Office, BLM. A Type II Incident Management Team (Hefner) is assigned. This complex consists of the Horse Creek fire at 6,000 acres, the Saddler fire at 8,000 acres and the Table Mountain Fire at 4,000 acres. No additional information was reported.

DUN GLENN COMPLEX, Winnemucca Field Office, BLM. A Type II Incident Management Team (Vorce) is assigned. The complex includes 20 fires. Structure protection remains a top priority. Shifting winds and rapid rates of spread are hampering suppression efforts.

JUNGO COMPLEX, Winnemucca Field Office, BLM. A Type II Incident Management Team (Suwyn) is assigned. This fire is 55 miles northwest of Winnemucca, Nevada. Suppression priorities will be established later this morning after field reconnaissance is completed. Numerous ranches, structures, grazing allotments, cultural resources and Heap Leach gold mine are threatened. Observed fire behavior included extreme rate of spread, high flame lengths, spotting and low fuel moisture. Predicted high winds are a current concern.

OSGRAVE, Winnemucca Field Office, BLM. No additional information was received.

EDEN VALLEY, Winnemucca Field Office, BLM. No additional information was received.

EUGENE, Winnemucca Field Office, BLM. No additional information was received.

FIRST CREEK, Winnemucca Field Office, BLM. No additional information was received.

GRASS VALLEY 1, Winnemucca Field Office, BLM. No additional information was received.

GRASS VALLEY 2, Winnemucca Field Office, BLM. No additional information was received.

OZGOOD, Winnemucca Field Office, BLM. No additional information was received.

POKER BROWN, Winnemucca Field Office, BLM. No additional information was received.

UNIONVILLE, Winnemucca Field Office, BLM. No additional information was received.

BAXTER, HUMBOLT National Forest. This fire near Ruby Valley is burning in grass, sage, Pinon pine, juniper, aspen and Service berry. Fire behavior was influenced by thunderstorms and shifting winds in the area. Control problems include steep terrain, gusty winds and heavy concentrations of fuel. Current threats are to structures and to Lahotan Cutthroat Trout habitat.

BATTLE MOUNTAIN COMPLEX, Battle Mountain field Office, BLM. A Type II Incident Management Team (Burdick) is assigned. This thirteen fire complex is in the vicinity of Battle Mountain. Several fires remain unstaffed this morning. The Mule Canyon fire continues to threaten a sub-division in Battle Mountain and a Federal Aviation Administration radio site on Mountain Lewis. Dry and abundant fuels along with shifting winds from thunderstorms are hampered a major burn out operation yesterday.

NEW PASS, Cedar City Field Office, BLM. This fire is on New Pass summit near Austin, NV. Due to the remote location and lack of resources, suppression activity has been limited.

WILCOX, Carson City Field Office, BLM. The fire is on Pond Peak northeast of Sparks, Nevada. Firefighters took advantage of favorable weather conditions to make positive progress. No additional information was reported.

POCO, Carson City Field Office, BLM. No additional information was received.

Shoshone, Carson City Field Office, BLM. No additional information was received.

Shirt Tail, Carson City Field Office, BLM. No additional information was received.

NORTHWEST LARGE FIRES:

POTATO HILLS, Burns District, BLM. A Type II Incident Management Team (Tucker) is assigned. This fire is forty miles west of Burns, OR. The fire is burning in juniper and Pinon pine. Crews made good progress securing the fireline yesterday. No real problems are anticipated.

LAKE WENATCHEE, Wenatchee National Forest. A Type II Incident Management Team (Furlong) is assigned. This is fifteen miles northwest of Leavenworth, WA. The complex consists of ten fires, four of which are contained. The largest fire is sixty acres.

LONG HOLLOW SUMMIT, Burns District, BLM. This fire is four miles west of Fields, OR. This lightning caused fire is burning in heavy brush and grass. Good progress was made despite continued winds. The evacuation has been lifted for the community of Fields, Or., and residents were able to return yesterday.

BALKY FIRE, Okanagan National Forest. This fire is three miles northeast of Twisp, OR. No acreage gain occurred yesterday.

**EASTERN GREAT BASIN LARGE FIRES:**

BUCK'N DOE, Lower Snake District, BLM. These lightning ignited fires are 30 miles south of Glens Ferry, Idaho. The fire posed less of a threat than other fires started yesterday. At this time no resources are assigned but the fire will continue to be monitored.

SOLDIER, Salmon/Challis National Forest. A Fire Use Management Team (Johnson) is assigned. These lightning ignited fires, thirty miles northwest of Stanley Idaho, are being managed to accomplish resource objectives.

MULE BUTTE, Upper Snake River District, Eastern Idaho Area, BLM. A Type II Incident Management Team (Saleen) is assigned. This fire is 15 miles northwest of Aberdeen, ID. Significant progress was made on the fire. The increase in acreage is due to a burnout operation conducted last night.

**NORTHERN CALIFORNIA LARGE FIRES:**

BUCKHORN COMPLEX, Northern California District, BLM. A Type II Incident Management Team (Madden) is assigned. This fire is twelve miles east of Ravendale, CA. The fires are burning in grass, sage and juniper. When suppression forces arrived the complex consisted of the Pine fire (3 acres), Buckhorn fire (140 acres), Observation fire (225 acres), Dune (1 acre), and the Rave fire (900 acres). Yesterday afternoon the Rave fire made a significant run to the northeast and crossed Painters Creek. Currently the Rave fire is estimated at 5,000 acres. To days tactics include structure protection, as isolated private ranches are in the vicinity.

**OUTLOOK:**

**\*\*\* A FIRE WEATHER WATCH IS POSTED FOR CENTRAL AND SOUTHERN NEVADA FOR STRONG GUSTY WINDS. \*\*\***

Oregon, Washington and Idaho will experience a moist southerly flow aloft on the east flank of an upper level low that will continue to dominate the region.

In the coastal areas west of the Cascades, showers and isolated wet thunderstorms are expected with temperatures in the 70's and 80's. East of the Cascades, eastern Oregon, Washington and northern Idaho will have scattered thunderstorms that will form in the afternoon. Southern Idaho will have a chance of thunderstorms. Temperatures in the mountains, east of the cascades will remain in the 80's. Temperatures will be in the mid 90's in the valleys.

Minimum relative humidities will be lowest over southeast Oregon and the Columbia Basin with 10 to 20 percent readings. Idaho relative humidities are expected to be 15 to 25 percent.

Nevada and northern California will experience a southwest flow aloft that will continue with less moisture and cooler conditions. Northern California will have a chance of showers and wet thunderstorms. The Eastern Sierra Nevada will only have a slight chance of showers and wet thunderstorms. Over central and southern Nevada breezy to windy conditions will develop with southwest winds 15 to 25 mph, with gusts to 45 mph over Southern Nevada. Highs will be in the 70s to mid 80s.

\*\*\* NATIONAL INTERAGENCY COORDINATION CENTER \*\*\*

**INCIDENT MANAGEMENT SITUATION REPORT**  
**SATURDAY, AUGUST 7, 1999 - 0900 MDT**  
**NATIONAL PREPAREDNESS LEVEL III**

**CURRENT SITUATION:**

New starts in the Western Great Basin were minimal, however strong winds contributed to significant acreage gains on large fires. Initial attack fire activity persisted throughout most of the western United States. Suppression forces continued to make good progress on large fires in the Eastern Great Basin, Northwest and Northern California Areas. Resource mobilization through the National Interagency Coordination Center remains steady. Very high to extreme fire indices were reported in Oregon, Washington, California, Montana, Idaho, Utah, Nevada, Delaware, New Hampshire, Rhode Island, Maine, Maryland, Connecticut, New Jersey, New York, Pennsylvania.

**WESTERN GREAT BASIN LARGE FIRES:**

An Area Command Team (Meuchel) is staged in Winnemucca, NV. A Type I Incident Management Team (Richer) is staged in Winnemucca, NV.

SADLER COMPLEX, Elko Field Office, BLM. A Type II Incident Management Team (Hefner) is assigned. Yesterday's extreme fire behavior was due to high winds and low fuel moisture. Frontal passages producing 30 to 40 mph winds contributed to acreage increases on all four fires in the complex. Structure protection was effective with no loss of structures. One hundred head of livestock were killed by the advancing fire. Today's priorities include protection of private ranches and a subdivision northwest of Jiggs.

ROSE, Elko Field Office, BLM. The fire started north and east of the Frenchie fire and made major runs on both sides of Interstate 80, threatening structures in Palisade Canyon to the south and Emigrant Maintenance Station. A microwave tower to the north, grazing allotments and powerline are also threatened. Strong winds pushed the fire, resulting in acreage increases.

DUN GLENN COMPLEX, Winnemucca Field Office, BLM. A Type II Incident Management Team (Vorce) is assigned. The complex includes 20 fires. Extreme fire behavior and 30 mph winds were observed. Significant events included timbers in abandoned mine shafts igniting on the Eugene fire. Dozers constructed fireline, protecting a major powerline in the Interstate 80 Corridor on the Cyanco fire. Constructed plowed line on Blue Mount fire prevented major damage to agricultural crops and to grazing allotments.

JUNGO COMPLEX, Winnemucca Field Office, BLM. A Type II Incident Management Team (Suwyn) is assigned. This fire is 55 miles northwest of Winnemucca, NV. Yesterday's fire behavior included wind driven runs and spotting. Some rain was received. Crews are making good progress on the Slumbering Hills Fire. High winds and blowing dust limited visibility.

BAXTER, HUMBOLT National Forest. This fire near Ruby Valley is burning in grass, sage, pinon pine, juniper, aspen and service berry. No new information was reported.

UBY, HUMBOLT National Forest. This fire is in the Ruby Valley. The fire burned into Lutz Creek. The fire is currently moving south toward Thompson, NV.

BATTLE MOUNTAIN COMPLEX, Battle Mountain Field Office, BLM. A Type II Incident Management Team (Burdick) is assigned. This thirteen fire complex is in the vicinity of Battle Mountain. A red flag warning for strong wind contributed to extreme fire behavior. The complex is staffed with limited resources. Problems included communication problems, structures threatened, impact to the community of Battle Mountain, communications sites and wildlife habitat.

TRAIL CANYON, Winnemucca Field Office, BLM. This fire is 20 miles northeast of Austin, NV. Resources threatened include grazing allotments, wildlife habitat and a Wilderness Study Area. The fire is following the contour of the range and is staying out of the flats. Major problems and concerns are the extreme fire behavior due to high winds and low relative humidities. A large burn out operation was conducted around residences and out buildings.

LONE BUTTE, Winnemucca Field Office, BLM. The fire is burning 15 miles northeast of Golconda, NV. Fire activity was due to strong winds from the west. Ten miles of dozer line was completed. Problems and concerns include strong winds and land owner concerns. This fire will become part of the Corridor Complex today.

NEW PASS, Carson City Field Office, BLM. This fire is on New Pass Summit near Austin, NV. This fire will be combined into a complex later today. The fire burned into the Antelope fire on Battle Mountain.

WILCOX, Carson City Field Office, BLM. This fire on Pond Peak, northeast of Sparks, NV. No new information was reported.

POCO, Carson City Field Office, BLM. This fire is in the Jobs Peak Wilderness Study Area. Minimal spread occurred yesterday due to overcast skies and lower temperatures.

SHOSHONE, Carson City Field Office, BLM. The fire is 50 miles east of Fallon, NV. The fire was monitored yesterday. The fire has the potential to merge with the New Pass Incident.

SHIRT TAIL, Carson City Field Office, BLM. The fire is 15 miles northeast of Fallon, NV. The fire burned a significant amount of the Stillwater and Jobs Wilderness Study Area.

COSGRAVE, Winnemucca Field Office, BLM. No new information was reported.

EUREKA COMPLEX, Battle Mountain Field Office, BLM. No new information was reported.

EDEN VALLEY, Winnemucca Field Office, BLM. No new information was reported.

EUGENE, Winnemucca Field Office, BLM. No new information was reported.

FIRST CREEK, Winnemucca Field Office, BLM. No new information was reported.

GRASS VALLEY 1, Winnemucca Field Office, BLM. No new information was reported.

GRASS VALLEY 2, Winnemucca Field Office, BLM. No new information was reported.

ZGOOD, Winnemucca Field Office, BLM. No new information was reported.

RODCHESTER 1, Winnemucca Field Office, BLM. No new information was reported.

RODCHESTER 2, Winnemucca Field Office, BLM. No new information was reported.

UNIONVILLE, Winnemucca Field Office, BLM. No new information was reported.

**NORTHWEST LARGE FIRES:**

LAKE WENATCHEE COMPLEX, Wenatchee National Forest. A Type II Incident Management Team (Furlong) is assigned. This fire is fifteen miles northwest of Leavenworth, WA. The complex consists of 11 fires, with seven of the fires being contained. The largest fire is 70 acres. Higher humidities and occasional light showers aided suppression efforts.

OKF = Okanagon National Forest.  
 ODF = Oregon Department of Forestry.  
 BUD = Burns District, BLM.

**EASTERN GREAT BASIN LARGE FIRES:**

DEER CREEK, Lower Snake District, BLM. This fire is 16 miles southeast of Jordan Valley, OR. The fire is burning in grass, sage and juniper. Yesterday the fire was not staffed due to other fire activity. Resources will be in place to access the fire today.

LITTLE BIG, Lower Snake District, BLM. This fire 20 miles southeast of Bruneau, ID. Containment objectives were delayed due to shifting winds.

SCF = Salmon/Challis National Forest.  
 IFD = Upper Snake River District, Eastern Idaho Area, BLM.  
 BOD = Lower Snake District, BLM.

NORTHERN CALIFORNIA LARGE FIRES:

BUCKHORN COMPLEX, Northern California District, BLM. A Type II Incident Management Team (Madden) is assigned. These fires are twelve miles east of Ravendale, CA. The fires are burning in grass, sage and juniper. Last night the fire received light rain for two hours which allowed crews to make good progress with direct handline. Current threat remains to isolated private ranches scattered around the area. Demobilization has started.

OUTLOOK:

The coast of Oregon, Washington and Idaho, will experience a cool upper level low bringing periods of rain. East of the cascades and Oregon are expected to have scattered rain showers and a few wet thunderstorms. Eastern Washington and northern Idaho will have a chance of showers and wet thunderstorms. The remainder of Idaho will be on the fringes of a deep moisture associated with the showers and thunderstorms over the mountains. High temperatures will be in the 60's and 70's along the west coast, to 70's east of the cascades.

Northwest Nevada and northern California will experience a precipitation shield from the pacific low, bringing numerous rain showers and a few wet thunderstorms. Northeast Nevada will see isolated thunderstorms near the Idaho border. Northern California and northern Nevada will have high temperatures ranging from the 70's into the 80's. Southern Nevada will see temperatures in the 80's to 90's.

Incident Information (incident@idh.vita.org)

## INCIDENT MANAGEMENT SITUATION REPORT

**MONDAY, AUGUST 9, 1999 - 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL III**

### CURRENT SITUATION:

Large fire activity continued in the Western Great Basin Area, while initial attack response was moderate. Several large incidents were contained yesterday, making resources available for reassignment. Initial attack activity continued in the Northern Rockies, Northwest, California and Eastern Great Basin Areas. Resource mobilization through the National Interagency Coordination Center was moderate. Very high to extreme indices were reported in Oregon, Washington, California, Idaho, Montana, Nevada, Utah, Wyoming, North and South Dakota.

### WESTERN GREAT BASIN LARGE FIRES:

An Area Command Team (Meuchel) is assigned to support large fires within the Western Great Basin Area.

SADLER COMPLEX, Elko Field Office, BLM. A Type I Incident Management Team (Storey) assumed management of the incident last night. This fire is 45 miles south of Elko, NV. Strong, shifting winds caused the Sadler Fire to continue its movement north and east toward private land in Huntington Valley and the Lucky Nugget subdivision. Rates of spread were observed at 40 to 60 chains per hour.

DUN GLENN COMPLEX, Winnemucca Field Office, BLM. A Type II Incident Management Team (Vorce) is assigned. The complex consists of 20 fires. Significant progress was reported on all fires within the complex yesterday. Estimated containment percentage was revised because the fires within the complex are in varied states of containment.

RUBY, Humboldt National Forest. This fire is in the Ruby Valley. No new information was received. This will be the last report.

BATTLE MOUNTAIN COMPLEX, Battle Mountain Field Office, BLM. A Type II Incident Management Team (Burdick) is assigned. This complex consists of 13 fires. Pinion pine and juniper fuels are showing some resistance to control. Current threats are to private ranches, communication sites, historical sites and wildlife habitat.

NEW PASS COMPLEX, Carson City Field Office, BLM. A Type II Team (Williams) is assigned. This fire is 60 miles east of Fallon, NV. The New Pass fire was more active yesterday. Good progress was made on the Shoshone and Poco fires with established lines holding. Hotter and drier weather conditions coupled with predicted wind speeds from 10 to 20 mph is a continued concern.

EUREKA COMPLEX, Battle Mountain Field Office, BLM. This complex includes the Trail Canyon fire. Extreme rates of spread and fire behavior were observed yesterday. Actions taken to protect structures were successful. Current threats continue to be to private ranches and grouse habitat.

OUTLOOK:

Oregon, Washington and Idaho will experience partly to mostly sunny skies with high temperatures in the 60's and 70's along the west coast. Temperatures east of the Cascades will be in 80's. The Oregon Cascades, eastern mountains and the west coast will have a chance of afternoon thunderstorms. Idaho will be sunny with high temperatures in the 80's to the lower 90's in the southern valleys. Southeastern Oregon and southwest Idaho, relative humidities will range from 8 to 18 percent.

Northern California will be partly cloudy. The Sierra Nevada will have a chance of afternoon thunderstorms. Northwestern Nevada will experience dry thunderstorms while the remainder of the state will be mostly sunny. Utah will experience scattered thunderstorms in the mountains. Temperatures will range from the 60's to the 70's west of the northern California Cascades. Northern Great Basin temperatures will be in the 80's to the 90's. The southern deserts of Nevada and Utah will be near a 105. Relative humidities will be 10 to 20 percent in the southern deserts of Nevada and Utah. Southwest winds in eastern and southern Nevada will be 15 to 20 mph.
